RE: UC Davis Brewery Winery and Food Pilot Facility – GSU # ANP151077104

To Whom It May Concern:

Please be advised that on February 12, 2010 I visited the roofing project at the UC Davis Brewery facility. In my 25 years experience inspecting single ply roofs throughout the United States, this project was undoubtedly one of the best PVC installations I have observed. Superintendent Carl Boyer and Foreman Leonel Mendoza paid close attention to detail, and truly mastered the art of single ply. The level of quality far exceeded Johns Manville's expectations, and level of quality typically observed.

Reinhardt Roofing Inc. has become one of Johns Manville's highest quality installers in the Bay Area. Reinhardt's workmanship in both Single Ply and Bituminous roofing systems is of the highest quality.

Should you have any additional questions or comments, please feel free to contact me accordingly.
